

Take a lead role as Senior Estimator, creating and delivering high-end aluminium windows and doors across the Illawarra and South Coast of NSW.

Senior Estimator

- Trusted AWS fabricator of high-end residential aluminum windows and doors
- Delivering exceptional customer service and tailored solutions
- Work life balance is assured in this beautiful part of the South Coast, NSW.

Our client...

Our client manufactures Architectural Window Systems (AWS) custom window and door solutions to the highest quality and are designed to be the perfect fit for every project. Their products undergo thorough testing and certification to ensure they meet the highest standards. They simplify the process of choosing aluminium windows and doors, helping clients pick the best option for their projects.

What they offer...

Being a forward-thinking company that thrives on seeing their people develop and believing that effort should always be rewarded, they are offering the right person with drive and enthusiasm for the following:

- Competitive base salary
- Superannuation
- Training and development

You're responsibility...

Working out of their Lake Illawarra office and reporting to the Managing Director, your primary responsibility will include overseeing the estimation of window and door projects, ensuring adherence to standards, and leading efforts to optimize operations. Your key responsibilities will be:

- Lead and mentor the estimation team, providing guidance and support to ensure high-quality outputs.
- Apply thorough understanding of standards and regulations to ensure compliance and quality.
- Prepare and present detailed reports and proposals for all types of clientele
- Collaborate with other departments to gather necessary information and ensure alignment on project planning.
- Use problem-solving skills to assess and enhance estimation process, driving continuous improvement in accuracy and proficiency.

What you will bring...

The ideal candidate for this full-time position has the following attributes:

- Proven expertise in estimating products like glass, aluminium, windows and doors through AWS systems.
- AWS estimation and fabrication experience is a must have in this role.
- Demonstrated leadership capabilities in estimation, quotation, and office administration.
- Strong problem-solving skills with a natural flair for identifying opportunities for design improvement.
- In-depth knowledge of BCA, AS1288, AS2047, fire codes and STC ratings.
- Highly motivated, energetic and clear-thinking individual with plenty of initiative and "can do" attitude.
