

March 2025

Lead with technical efficiency as a Glazing Manager and be part of our expert team – your next career opportunity awaits!

Glazing Manager

- Expert glazing solutions for residential, commercial, and industrial needs.
- With nearly 40 years of experience, their team delivers quality, reliable glass services.
- Be the leader of a team that just gets things done ...

Our client...

An industry leader in glazing solutions, specializing in high-quality glass installations and energy-efficient products. Committed to sustainability and innovation, they are globally recognized for setting trends in the market. They are now seeking a Glazing Manager to lead teams and drive efficiency.

What they Offer

Being a forward-thinking company that thrives on seeing their people develop and believing that effort should always be rewarded, they are offering the right person with drive and enthusiasm the following:

- Competitive Base Salary
- Superannuation & Vehicle Allowance
- Supportive team environment with focus on quality and efficiency.

Your Responsibilities

Based in Alexandria, and reporting to the General Manager, this role primarily involves leading a glazing team, ensuring quality standards, managing performance, and overseeing complex glass replacement projects. Your key responsibilities will be to:

- Lead and supervise a glazing team, ensuring high-quality work, safety compliance, and efficient project execution.
- Provide ongoing training and development for team members, addressing knowledge gaps and tracking progress.
- Oversee project timelines, budgets, and quality standards while liaising with other departments to ensure client satisfaction.
- Ensure compliance with safety regulations, conduct inspections, and maintain accurate records for documentation and reporting.

What you will bring

This full-time position will suit someone who has the following attributes:

- Proven experience as a Glazing Manager, Site Supervisor, or similar role in the glazing industry.
- Strong knowledge of glazing materials, techniques, and industry standards.
- In-depth knowledge of health and safety requirements, both internal and on-site.
- Astute with software and remote field management systems – Salesforce desirable.
- Strong leadership, communication, and problem-solving skills.
